## MSS Type D Terminal

Technology Transferred to M/s Avantel Limited, Hyderabad,  
M/s Komoline Electronics Pvt. Limited, Ahmedabad,  
M/s VXL Technologies Pvt. Limited, Faridabad .

This terminal provides voice communication link between two portable terminals and between terminals to PSTN network via hub station. The MSS Type D System is having portable terminal with flat panel antenna and operates in S band. The terminal is battery operated with talk time of 3 hrs and stand by time of 24 hrs. The application includes voice, data and Fax communication from any remote location in Indian mainland region. Reliable communication support when all other conventional means fails especially during disasters like flood, earthquake etc.
